**The Horizon, Bangsar South, Bangsar**

Bangsar South is KLs most sought after address for todays generation of lifestyle folks who appreciate stylish suburbia living in close reach to a fast paced city. Designed to satisfy those looking for a trendy address and bestowing all the pleasures of cosmopolitan pursuits by virtue of its excellent location, living has never been more coveted, but right here in Bangsar South.

Everything from its architecture to its well-thought facilities has been made for todays global citizen, one who lives with new demands amid chameleon trends. Unlike other townships, it models itself after cosmopolitan townships in great cities, containing the best facilities, modern facades, contemporary residences and elegant offices. Bangsar South City was awarded the MSC Malaysia Cybercentre status on 7th Jan 2010. This approval is a clear testament and endorsement of Bangsar South City as a landmark development on par with the best globally.

**THE HORIZON:**

Three entire blocks of The Horizon Phase 1 are MSC-compliant and completely broadband enabled, opening up opportunities for ICT and multimedia companies to locate their headquarters at affordable rents. Apart from that, The Horizon Phase 1 boasts generous ceiling heights for that feeling of spaciousness, sleek curtain walls offering a spectacular view and the convenience of en-suite washrooms and pantries on every floor. Secure, spacious and well-lit parking lots are welcome features.

The development is also strategically located with KL, PJ and Bangsar within a ten-minutes travelling time radius, and for added convenience, public transports like University LRT station and Rapid bus services at your doorstep together with plenty of retail shops and F&B outlets at The Sphere, Bangsar South exciting neighbourhood mall.

Taking pride of place at one end of The Horizon is the new UOA headquarters. Aptly named UOA Bangsar South, it embodies UOA pride in, and commitment to, this project.

Surging forward from the success of The Horizon Boutique Offices, Phase 1, planning for the next phase is already underway.
